Virtual Public Statement Hearings to be Held on Central Hudson's Proposed Electric and Gas Delivery Rates

ALBANY — The New York State Public Service Commission (Commission) announced that it will hold two virtual public statement hearings on Wednesday, October 28, 2020, concerning proposed changes in the electric and gas delivery rates and practices of Central Hudson Gas and Electric Corporation (Central Hudson).

Central Hudson filed amendments to its electric and gas tariff schedules on August 27, 2020, proposing to increase its annual electric and gas delivery revenues effective July 1, 2021.

Central Hudson proposes to increase its electric delivery revenues by approximately \$32.8 million (8.4 percent increase in base delivery revenues, or 5.1 percent increase in total system revenues). The requested increase in electric delivery revenues results in an average residential monthly bill increase of \$7.76 (6.22 percent increase on the total bill) for an average 630 kWh per month customer. Central Hudson has proposed moderating the increase with \$20 million of bill credits representing projected net regulatory liability balances, which would reduce the impact on customers from \$32.8 million to \$12.8 million (3.3 percent increase in base delivery revenues, or 2 percent increase in total system revenues). Including the bill credits, the bill impacts on an average residential customer would be \$3.51 per month (2.82 percent increase on the total bill).

Central Hudson proposes to increase its gas delivery revenues by approximately \$14.4 million (12.1 percent increase in base delivery revenues, or 7.7 percent increase in total system revenues), which would result in a monthly bill increase of approximately \$9.45 (7.96 percent on the total bill) for an average residential heating customer using 70 Ccf per month. Central Hudson has proposed moderating the increase with \$8 million of bill credits representing projected net regulatory liability balances, which would reduce the impact on customers from \$14.4 million to \$6.4 million (5.4 percent increase in base delivery revenues, or 3.4 percent increase in total system revenues). The resulting impact including the bill credits on an average residential heating customer would be \$3.28 per month (2.76 percent on the total bill).

Central Hudson's pre-filed testimony and exhibits in these proceedings may be reviewed online at the Department of Public Service web page, www.dps.ny.gov, by searching under Case 20-E-0428 or 20-G-0429.

The Public Service Commission must consider a utility's proposal and may adopt or reject it, in whole or in part, or modify it. In doing so, the Commission will consider changes proposed by the participating parties and general public. Administrative law judges are presiding over the gathering of public comments and all evidence relating to the proposal.

PLEASE TAKE NOTICE that virtual public statement hearings will be held before Administrative Law Judges (ALJs) Anthony Belsito and Michael Clarke as follows:
